360 Y-DROP™/360 UNDERCOVER™ Case IH AIM Adaptor

When purchasing a 360 Y-DROP / 360 UNDERCOVER system, select these adapters when the 360 Y-DROP and/or 360 UNDERCOVER system is for a Case IH sprayer equipped with AIM Command. The quantities should match those of the base units (or appropriate hoses). For example, if the order is for a 24R x 30" system, 23 of these adapters are necessary to connect the 360 Y-DROP riser hose to the Case IH AIM Command nozzle. The adapter is required to convert the TEEJET female end of the riser hose assembly (provided) to mate with the male connector on the Case IH AIM Commander nozzle body on the sprayer. The retail price is \$5.00

Part Number 416005 – Adapter for Case IH AIM
