SUPER: 500 Bushel Per Acre

VO: Five hundred bushel per acre. That's the potential of modern seed corn.

But how much of that are leaving in the field?

360 Yield Center can help you get more of the potential you planted.

GRAPHIC: Sense.

We can help you sense yield limiting variables in your field.

LOGO: 360 SOILSCAN

Decide the optimal response to those variables.

GRAPHIC: Decide.

LOGO: 360 COMMANDER

And apply those decisions when and where you need them most.

GRAPHIC: Apply.

LOGOS: 360 Y-DROP and 360

UNDERCOVER

So at harvest, you leave nothing in the field.
