

WHAT IF V6 ISN'T
YOUR LAST CHANCE
TO APPLY NITROGEN.

IT ISN'T.

⊕ SENSE ⊕ DECIDE ⊕ APPLY

WIDEN YOUR WINDOW

Traditional sidedress methods limit your nitrogen application window and increase your worry. Now, there's another way. 360 Y-DROP™ extends your window – so you can apply N from V6 all the way up to VT. That's more than 30 days, giving you more control to apply N when it's needed most and capture more yield potential.

Let's widen your window.
