

WHAT IF YOU COULD TARGET PROBLEMS AT THE SOURCE?

YOU CAN.

⊕ SENSE ⊕ DECIDE ⊕ APPLY

TAKE A NEW ANGLE AT CROP PROTECTION.

Most diseases start at the base of the plant.
So why should disease protection come from above?

360 UNDERCOVER™ provides targeted, under-canopy application and puts the fungicides, insecticides or nutrients right where they're needed. Its multiple nozzle choices allow you to adjust your application speed and pressure so you have complete under-canopy coverage and better plant health.

Take a bottom-up approach.
