

360 SOILSCAN Rebate Form

A Program for 360 COMMANDER Users

360 SOILSCAN™ provides a complete picture of what is happening in the field. Getting real-time, in-field nitrate-nitrogen readings at the time of N application allows for better, fact-based N rate decisions. 360 SOILSCAN allows you to ground truth the field status, not just model, and we want you to have the opportunity to benefit from this technology next season for more complete nitrogen management decisions.

We are providing 360 COMMANDER customers with a 360 SOILSCAN discount. Here's how:

- + Purchase and pay for a 360 SOILSCAN from your 360 Yield Center Dealer.
- + Fill out this form and return it to 360 Yield Center along with a copy of the 360 SOILSCAN invoice you received from your dealer.
