

360 BULLET

STYLE COMPARISON SHEET

360 BULLET HW

Our cast manufacturing process produces a 360 BULLET point with a longer wear life. The one-piece ripper point is poured from a propriety blend of chrome white iron. That produces a streamlined point that requires no additional hardface weld strips. This point is an ideal choice for the lower two-thirds of the corn belt and areas with no rocks.

💰 PRICE: \$140.00

✔ ATTRIBUTE: High Wear

⚙️ WEAR: Best

★ ROCK RATING: Below Average

360 BULLET HD+

Wear and impact resistance set the 360 BULLET HD+ apart from our other models. We add a bonded layer of chrome white iron to a cast steel base. The steel base provides added impact resistance and the chrome surfaces extend wear life. This is the point to use for areas where rocks are abundant.

💰 PRICE: \$180.00

✔ ATTRIBUTE: Extra Heavy Duty

⚙️ WEAR: Best

★ ROCK RATING: Recommended

360 BULLET - 1 1/2" SHANK & 1 1/4" LANDOLL

Our original 360 BULLET design combines a fabricated steel base, hardface weld wire and a chrome cap. A great choice for less abrasive soils with some rocks. This model is available for 1 1/2" wide shank rippers and 1 1/4" Landoll shanks.

💰 PRICE: 1 1/2": \$180.00 • Landoll: \$195.00

✔ ATTRIBUTE: Heavy Duty

⚙️ WEAR: Good

★ ROCK RATING: Good
